RE: Corrective Action Plan for the Camp Oliver Landfill [Solid Waste Management Unit (SWMU) 2] dated March 2001; Fort Stewart; EPA ID No. GA9 210 020 872.

Dear Colonel Stanley:

The Hazardous Waste Management Branch of the Georgia Environmental Protection Division (GA EPD) has reviewed the above-referenced document submitted in response to our correspondence (Khaleghi to Stanley) dated December 8, 2000 and determined that it is complete. Based upon our review, GA EPD tentatively approves the Corrective Action Plan for SWMU 2 dated March 2001. Please note that a final decision will be made by GA EPD pending the outcome of a forty-five day public comment period which will occur during the next modification of the Corrective Action Module (i.e., Section IV) and Appendix A in the your Hazardous Waste Facility Permit #HW-045(S&T).

Should you have any questions concerning this correspondence, please contact Brent Rabon of my staff at (404)656-2833.

Sincerely,

Bruce Khaleghi

Bruce Khaleghi, Unit Coordinator
Hazardous Waste Management Branch
