RE: Review of the *Final Revised MMRP RCRA Facility Investigation Report For Anti-Aircraft Range 90-mm – 2 MRS (FTSW-002-R-01) and Hero Road Trench Area MRS (FTSW-008-R-01); Fort Stewart,* Hinesville, Georgia; dated October 2, 2014 and received October 7, 2014; EPA ID No. GA9 210 020 872.

Dear Mr. Baumgardt:

The Land Protection Branch of the Georgia Environmental Protection Division (EPD) has reviewed the above-referenced document, including Fort Stewart's responses to EPD's comment letter (Potter to Baumgardt) dated June 30, 2014. From that review, it appears that Fort Stewart's responses to EPD's comments are acceptable. Based on the findings in the *Final Revised MMRP RCRA Facility Investigation Report For Anti-Aircraft Range 90-mm – 2 MRS (FTSW-002-R-01) and Hero Road Trench Area MRS (FTSW-008-R-01),* please submit a Corrective Action Plan for Anti-Aircraft Range 90-mm – 2 within one hundred twenty (120) days of receipt of this letter in accordance with Section III.E.2 of Hazardous Waste Facility Permit No. HW-045(S). Additionally, based on the report, no further action is necessary at this time for the Hero Road Trench Area (FTSW-008-R-01) as no evidence of CAIS sets was found. If you have any questions, please contact Mr. Mo Ghazi at 404-656-2833.

Sincerely,

Amy Potter
Unit Coordinator
Hazardous Waste Management Program
